Math

Students will complete reading and writing forms of decimal numbers (we will continue to practice this ALL year) and will begin comparing and rounding decimal numbers.

Rounding Decimals

Round each decimal to the indicated place value.

3.8726 → 3.87
hundredths

6.2456
thousandths

19.45
tenths

1. Identify the round-off place digit.
2. If the digit to the right of the round-off place digit is:
 - Less than 5, do not change the round-off place digit.
 - 5 or more, increase the round-off place digit by 1.
3. In either case, drop all digits to the right of the round-off place digit.

By rounding we are determine what number a given number is closer to.

Reading/Grammar/Writing

Reading/ Language Arts: We continue using Metacognition Strategies and continue our work on main idea for nonfiction text.

Vocabulary: We are learning about Greek and Latin *Equi(Latin Root)-equal, even*

1. equivalent - equal; being the same in effect, value, or meaning
2. equilateral - a geometric figure with all its sides of equal length
3. equitable - fair
4. equilibrium - a physical state of being able to maintain bodily balance
5. equinox - when the sun crosses the plane of the equator - day & night are of equal length
6. main idea - the most important point or thought of a text
7. determine - discover something or decide on something
8. support - to help

Spelling -New words will go home on 8/26

Writing - We will continue working with sentences, fragments, and run-on sentences. We will also begin working on the elements of an informational writing.

Science

Students will continue studying Static Electricity and how it compares to Human Harnessed Electricity (current electricity).

Social Studies

We will continue our study of the Amendment Process and the Bill of Rights.

Order your fifth grade t-shirt on line. Youth shirts are \$10 and adult shirts are \$12. We will not take any orders at RRE. You must order online by using the link below.
